

INDUSTRIAL TECHNOLOGY

A STEDY Certificate Program

PROGRAM DESCRIPTION

This program will prepare the individual for entry level employment in a broad range of career fields. Students are instructed in the processes and practices involved in the areas of industrial graphics, technical writing, robotic welding applications, and occupation safety.

JOB OUTLOOK

Employment of industrial technology employees is expected to level out from 2014—2024. The need for increasingly sophisticated employee skills will drive the advancement for this field and the need for students in technical writing, robotic welding applications, and occupational safety.
